THE OKMONIKS DEBUT ALBUM!

While still in her teens, Helene 33 was running a drive-in theater and two barbershops in Kalamazoo, Michigan. One night, while listening to a teenage dance combo, she was asked to sit in on organ. Later they invited Sammy to play guitar. Since forming the group they have played at packed dances all across the country. And long after a dance is scheduled to be over, things are still jumping.

Slovenly was supposed to choose two or three of the nine songs they submitted for a single... but all of the songs were so good, it was impossible to choose. Hence the album...
